

Re: TD04F Situation Report No. 18 as at 1200 Hours – Tuesday 20 December 2016

This situation report is to advise of the status of FRA's assets due to the effects of TD04F.

- **Queens Road is OPEN TO ALL TRAFFIC. Please take extra caution.**
- **Kings Road is FULLY OPEN. Partial restriction at Naboulini in Rakiraki.**
- **Wailotua Flats and Bucalevu Bridge in Korovou on Kings Road is now open. Extreme caution is required as roads will be very muddy and slippery.**
- Kasavu Landslide, located north of the Kasavu/ Baulevu Road Junction on Kings Road is **open to light vehicles only** and operating as a single lane with potential for full closure if there are further slips.
- The Kasavu slip has taken a great portion of the road and it isn't wide enough to allow larger vehicles including heavy goods vehicles, buses and carriers through at the moment.
- **Nawaikama on Jetty Road in Gau is closed**
- Some roads in the urban and low-lying areas are still in danger of flooding as rainfall continues in some parts of Fiji.
- Increased in number of potholes on the road network and the contractors will be carrying out remedial work as soon as the weather clears up. Motorists are advised to drive with extreme caution during this time.
- Some more roads continue to be fully closed and impassable at this stage and we are urging motorists not to drive through water because the depth is hard to gauge.
- Please remain vigilant, tune into the local radio and listen to the advice of emergency services.

Central Division

Depot	Road Name	Location Description	Status of Damage	Time/Date Reported	Advice to Motorists	FRA Contractors Action that Will be Taken	Expected Road Opening Date	Time/Date Resolved	How Resolved
Taunovo	Beqa Rd	Wainikavou Crossing	Approach Washout	14/12/16 1415	Closed to all vehicular traffic, pedestrians only	Monitor water levels	Unknown
