**INTERCONTINENTAL FIJI GOLF RESORT & SPA ROLLS OUT
ORGANIC SALT AND HONEY SPA TREATMENT EXPERIENCES AT NATADOLA BAY**

(NATADOLA, FIJI) Tuesday 19th March 2019 – The multi award winning Spa InterContinental at Natadola Bay is delighted to introduce two new organic signature spa treatments that are aligned with the Resort’s sustainability and conservation efforts. These treatments are the Lomawai Salt Glow Treatment and the Natadola Bay Honey Experience.

The key ingredient in the Lomawai Salt Glow Treatment is the salt crystals that are traditionally made by the people of Lomawai Village. As part of our sustainability efforts, the Resort purchases salt from the village to be used in the Resorts kitchens as well as for use in the Spa.

The Natadola Bay Honey Experience uses honey that is produced in house compliments of three queen bees and over thirty thousand working bees. The honey produced from these bees is used both in the spa as well as served up in honeycombs in our Restaurants throughout the Resort.

“These treatments are a significant refreshing addition to our current spa offering at the InterContinental Fiji Golf Resort & Spa, and I am thrilled to have been able to work with my team of therapists throughout the conceptualisation, testing and execution stages to ensure that we continue to excel and deliver guest experiences that are unique and memorable,” says Kalpana Devi, Spa Manager for Spa InterContinental at the InterContinental Fiji.

“The feedback from guests has been very positive and we are delighted with the results to date. We look forward to researching and introducing more unique and organic spa treatments as part of our sustainability effort and for a more green approach to holistic spa treatments.” Ms Devi added.

Consistently recognised as one of the best spa experiences in Fiji and Oceania, Spa InterContinental is an award-winning facility that offers unparalleled service and holistic spa treatments that combine Asian, Western and traditional techniques to soothe the mind, body, and soul.

Natadola Bay Honey Experience

Experience the super healing and beauty properties of locally produced Natadola Bay honey made by the Resort’s very own beehives. Skin is nourished with elements of sugar, honey, yoghurt, milk and tumeric at different stages - all which combine to rejuvenate and soothe the mind, body and soul.

Lomawai Salt Glow Treatment

Enjoy the detoxifying benefits of antibacterial organic salt sourced from the natural salt pit project at Lomawai Village. Salt crystals are combined with rosemary to boost healing properties and detoxification. A tropical Pina Colada shampoo and conditioning treatment further nourishes the scalp before relaxing into tranquil island bliss with a body massage.

InterContinental Fiji Golf Resort & Spa is part of the InterContinental Hotel Group (IHG) with over 5,000 properties and 744,000 guest rooms in nearly 100 countries. Overlooking the azure waters of Natadola Beach – voted by CNN as one of the best beaches in the world, and Fiji’s finest beach, the resort is spread across 35 acres of tropical manicured gardens and offers all of the facilities and services expected of a luxury international resort.
